### 3. Manipulating the biscuit and the ice cream structure

#### Country style sandwich

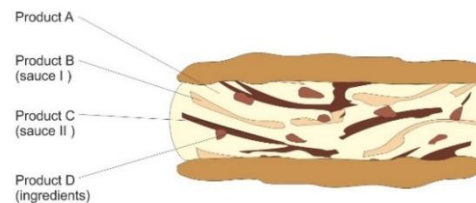

It is a general trend to promote home-made products, not manufactured industrially, products „with a soul”, which in the food business means, firstly, consumption safety due to the so-called „short ingredient list”, secondly, the product is in its way unique, unrepeatable, unorthodox

### 3. Manipulating the biscuit and the ice cream structure

Ice cream doesn't have to be extruded, it can be filled with different dozers, which creates new dosing possibilities!

## Ice cream sandwich variations

### 4. Additional operations

Outer dry coating

Smaller or larger inclusions

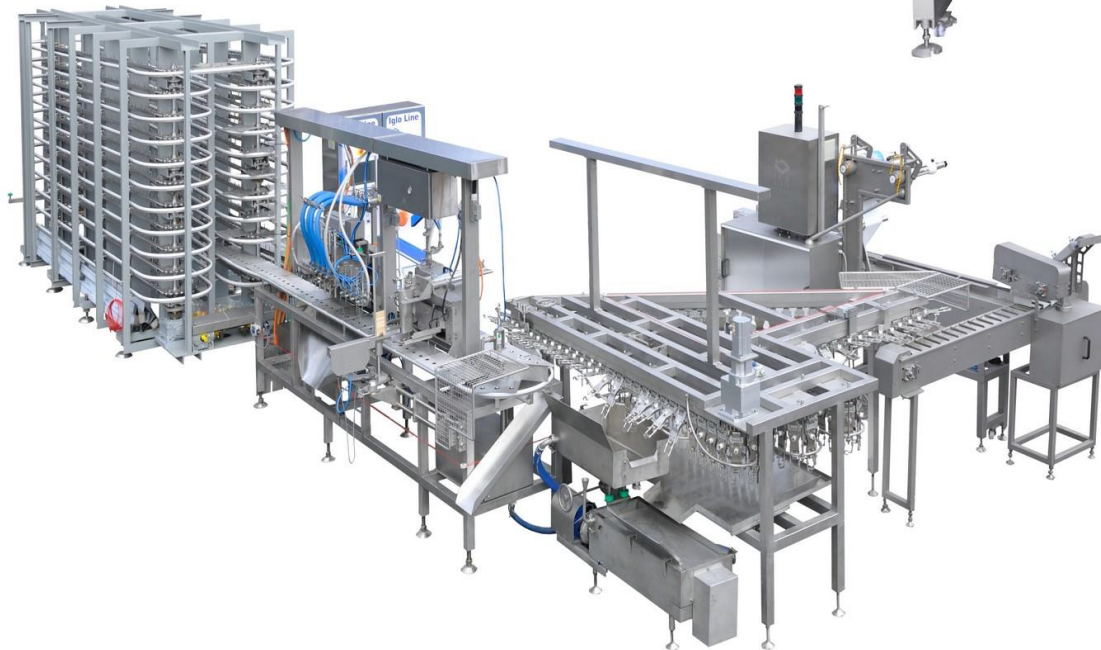

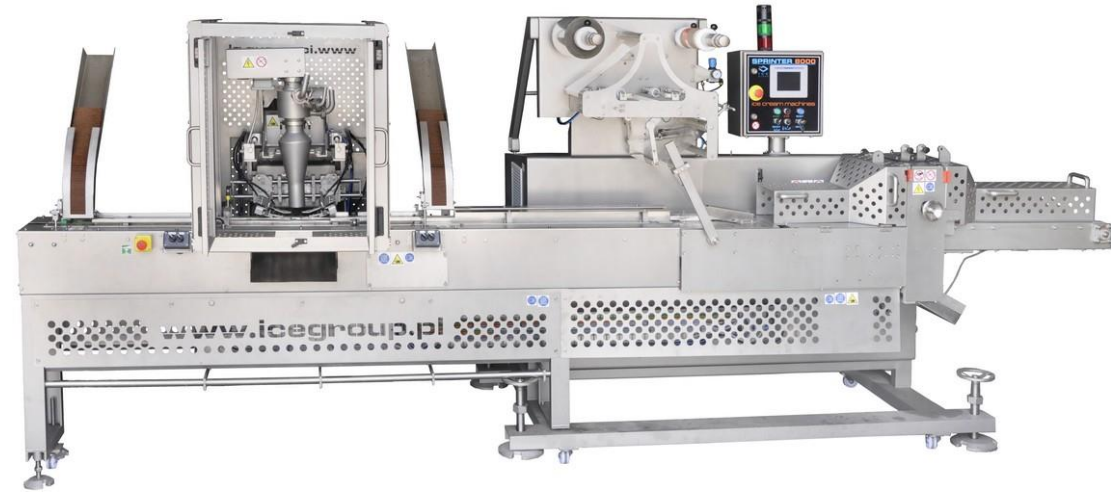

Full or half chocolate enrobing

## Ice cream sandwich production equipment

**Sprinter 8000**  
sandwich machine with  
flow-wrapping section

### **Iglo Line**

– extruding and hardening  
tunnel, also for sandwich  
products to complete portfolio  
of sticks, ball-top cones etc.
